

Welcome to the Official Players Guide for *Pokemon - Ultra Violet Version*. For those of you who do not know, *Pokemon – Ultra Violet Version* is a hack of *Pokemon – Fire Red Version*. The story and gameplay will be the same but there will be a lot of added content. There are a total of 386 Pokemon in this game, all are actually catchable in this ONE game, no trading is necessary.

This guide will contain notes from the hacker who created the ROM and will give you all the inside tips on where to catch every single Pokemon and all the other fun additions to the original game.

So without further ado, let's catch 'em all!

Using This Guide

This guide has three major parts:

Game Intro The first section covers all the basics and important stuff you need to know before you start the game.	The Index Filled with tables, the Index is where you go to find locations on everything in the game, from items to TMs to Pokemon. You can also get a short description of what each item does or what each TM contains. There is no huge Pokedex though, the Index is only for finding the locations of Pokemon.
The Walkthrough The main section packed with maps and info tells you how to find all the secrets in the game and complete it 100%.	

Battleing and Type Matchups!!!

There are 17 types of Pokemon, with many who belong to two type. Each type of Pokemon has strengths and weaknesses versus other types, with appropriate damage multipliers applied accordingly. Thus succeeding in battle comes down to matching Pokemon type for type. The well-balanced party has enough Pokemon straddling each category that you always have some Pokemon capable of causing your opponent devastating damage.

The following table shows how the various matches shake out. Damage can go as high as 4x if a Pokemon is comprised of two-classes that would each normally take 2x damage from a specific type.

	Normal	Fire	Water	Grass	Electric	Ice	Fighting	Poison	Ground	Flying	Psychic	Bug	Rock	Ghost	Dragon	Dark	Steel

Catch 'em all!

If there is an overriding reason for many people to play the Pokemon games, it is simply to collect each and every creature in the game. There are several ways to find them all. (not all of them are listed here)

Wild Encounters

The first, and most common, way you will find Pokemon is in wild Pokemon battles. Simply walk out into the grass or into a cave and it won't be long till a wild Pokemon jumps out from its hiding spot for a battle.

Then you can begin the process of catching this wild Pokemon and adding its data to your Pokedex.

Fishing

Though you won't be able to do it until you have gotten a fishing rod, fishing is a great way to catch those elusive, Water-type Pokemon.

To fish, all you need is a rod and some water. Simply walk up to a shore, river, or lake and use the rod of your choice, once you get a "bite", you are launched into battle against whatever Pokemon was on your hook.

Surfing

To catch Pokemon while surfing, you first need to acquire the HM03 SURF. After you do this, you just need a compatible Water-type Pokemon to teach the move to. Then, once you've taken to the sea on its back, it's precisely the same as walking in a cave or through grass... only Water-type Pokemon pop out.

Evolution

Most Pokemon have at least one other form they turn into after they've gained sufficient experience. This is the easiest way to add Pokemon to your Pokedex, and you'll probably be surprised at how quickly your collection begins to grow after a few Pokemon start changing into their more powerful forms. There are multiple ways to evolve Pokemon, some evolve at certain levels, while others use items or some other type of thing to trigger evolution.

The Business of Catching Pokemon...

There is only one way to catch a wild Pokemon, and that is via the use of a PokeBall. PokeBalls come in various types, each with its specific traits. The PokeMarts scattered throughout the land sell many types of PokeBalls. The majority of them being; standard PokeBalls, GreatBalls, and UltraBalls. Each is slightly more expensive than the previous and slightly more efficient.

That being said, luck plays a very large part in how effective a PokeBall can be in a given situation. While you might surmise that UltraBalls are the best in every situation, it isn't always so. Your best bet is to learn through experimentation which works best for you. After all, there is no need to lay down the big bucks for Ultra Balls if a regular old PokeBall will work fine.

In addition to these three kinds of PokeBalls, there are many more kinds you will run into during your adventure. You can find info about them in the Index or in the game itself after you have picked up these balls.

Trading

Trading is not as important in *Pokemon – Ultra Violet Version* but in game trades are still mandatory to catch them all. While in *Pokemon – Fire Red Version* some Pokemon required trading to evolve, that is not so in this game. You can catch and evolve EVERY Pokemon in the game without trading for any from another game.

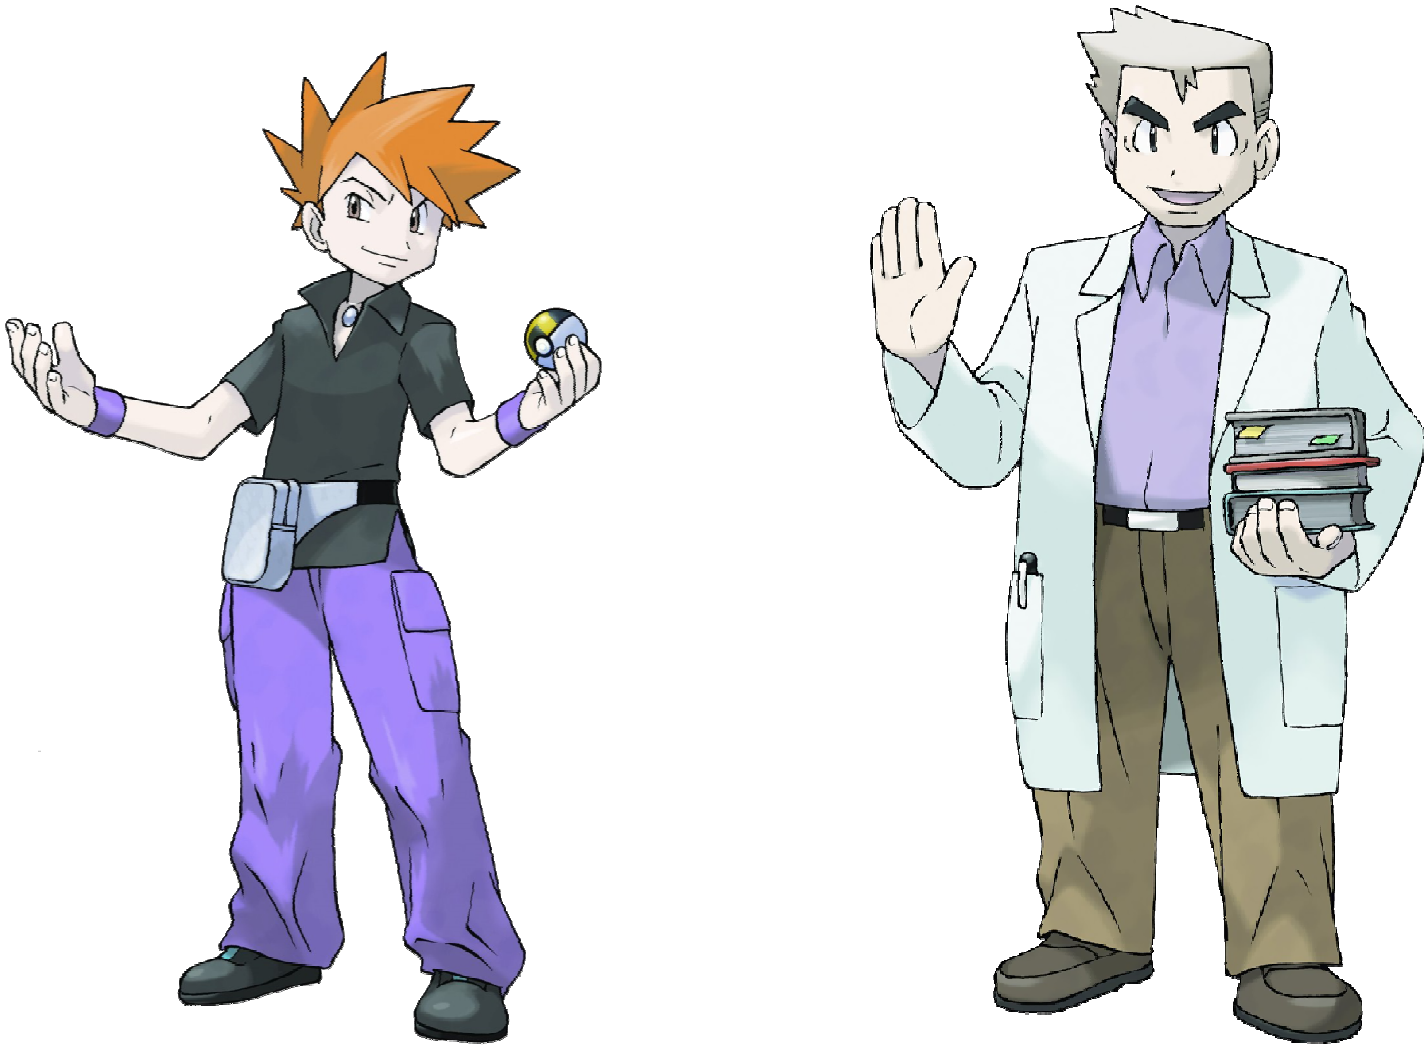

Welcome to the world of Pokemon!

Now you know everything you need to know before you start playing. So its officially time to hop in a comfy chair and begin your adventure into the world of Pokemon.

To understand some of the overworld maps in this players guide, you will need to know some key symbols:

	This star represents a special spot on the ground. When you step on this spot the next Pokemon you see will be a Shiny Pokemon (A Pokemon of an alternate color).
	This exclamation point represents a hidden item on the ground. Some of these items can be picked up by simply pressing (A) on that spot while others require the Item-Finder to be used.
1 2 3	Big bold numbers represent an event that will be detailed in the guide surrounding that map. (Numbers may vary in color depending on background)
A B C	Big bold letters represent a door, ladder, or warp point, follow these letters from map to map, [A] will take you from one map to [A] on another map [B] goes to [B] and so on. (Letters may also vary in color)

[DEVELOPERS NOTES: Like this box, contain helpful hints on getting the most out of your game]

Pallet Town: Visit One

1 After creating your character you begin in your bedroom. You can head over to your computer and get a Potion, then head downstairs and outside.

2 Once outside you can explore the town freely but nothing will happen until you try to head out of the town.

3 Once Professor Oak takes you inside his lab, he offers you a choice of three different Pokemon. You may choose one of these three, or talk to the Professor without choosing any and he will offer you the chance to catch your first Pokemon from one of his research facilities. If you choose this option you will be taken down a passage to a facility in the forest to the right of Pallet Town.

When you are finally given control of your character again, you are in a nice open field with plenty of tall grass. Just walk around in this grass and throw the special PokeBalls at the wild Pokemon you find.

You can also throw rocks or bait; rocks make Pokemon easier to catch, but they may flee from battle, bait make Pokemon less likely to flee, but they are harder to catch.

As soon as you catch one you are brought back inside the facility to head back to the lab. You will never see that facility or field again.

[DEVELOPERS NOTES: Starting with a Gastly will make gaining any levels in the first few areas very difficult. (see Type-Matchup chart above)]

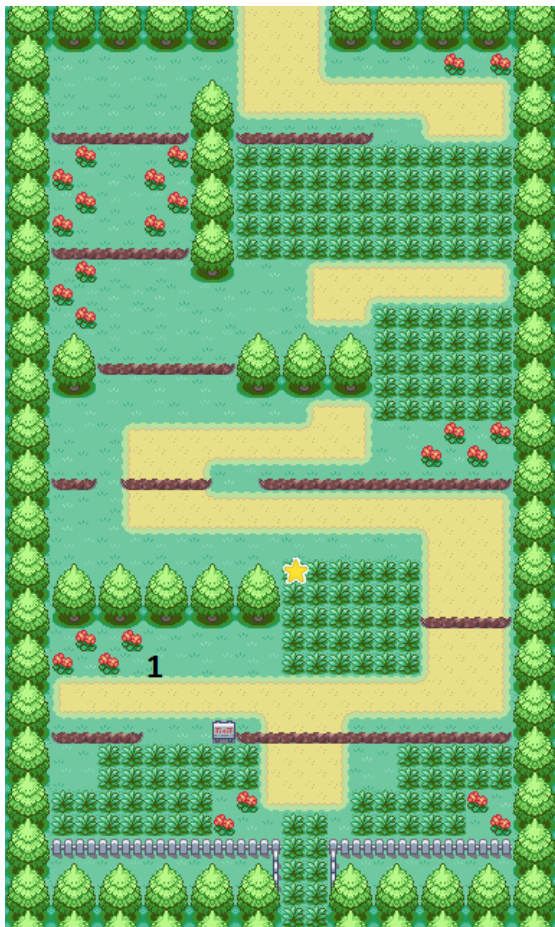

Wild Pokemon	
Pichu	30%
Machop	20%
Ralts	10%
Gastly	10%
Trapinch	10%
Houndour	5%
Spheal	5%
Larvitar	5%
Dratini	5%

Once you have chosen your starting Pokemon your Rival will choose his, based on the weakness of yours (If you caught your first Pokemon your Rival will choose Charmander). Then there is nothing left to do but leave the area... Of course it is not that simple, your rival wants to battle you. Neither of your pokemon know many moves so it should be an easy battle. Just remember your potion if he starts getting the upper hand.

After the battle with your rival you are free to leave and head out of Pallet Town... Onwards to Route 1...

Route 1

Wild Pokemon	
Pidgey	50%
Rattata	50%

Not a lot to do on Route 1... just fight a bunch of Pidgey and Rattata to gain experience.

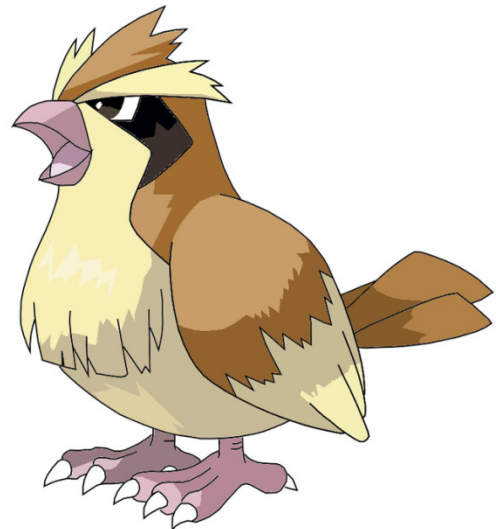

1 Don't forget to talk to the nice PokeMart man who will give you a free Potion for your trouble.

Your first Shinyizer is in Route 1. After stepping on this spot of land, the next Pokemon you fight will be an alternate color. You can always tell a Shiny Pokemon by the starts at the beginning of the battle.

After you have gained your fill of experience (or if you have taken a bit of damage and need to rest) head North to Viridian City.

Viridian City: Visit One

1 The first thing you should do when you get to any new town is go to the PokéCenter and heal your Pokémon.

[DEVELOPERS NOTES: If all your Pokémon faint from battle, you will return to the last PokéCenter you used, so even if you don't need to heal your Pokémon, at least walk in each PokéCenter so you will not have as much running to do to catch yourself back up, just in case you lose a battle.]

2 If you try to travel north out of Viridian City your path will be blocked by a man laying down. You will have to travel this way a little later.

There is another blocked path if you try to go through Route 22... that is reserved for MUCH later in the game.

As you explore the surrounding town, you may notice these funny little trees. These trees can be cut by Pokémon that know the HM01 move CUT. Once you are able to use this move out of battle come back and cut this tree down and see what's beyond it.

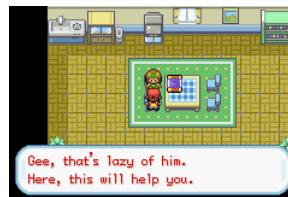

3 The only important thing you can do for now is head to the PokéMart. Once inside you will be given a package for Professor Oak. So take it and just head back south through Route 1 toward Pallet Town.

Pallet Town: Visit Two

1 Upon delivery of Professor Oaks Package, he gives you and your Rival a Pokédex and asks you to “Catch ‘em All!” He then gives you some PokéBalls to start filling your Pokédex.

2 If you are interested, Daisy (Your Rivals sister) will give you a Town Map to help guide you along your journey. It is completely optional however.

Viridian City: Visit Two

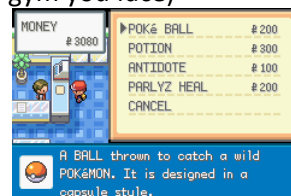

Back in Viridian City you will notice a few things have changed.

1 The Old Man blocking your path is willing to let you pass...

Only after forcefully teaching you how to catch Pokemon... then he hands you a Teachy TV to watch if you want to learn other stuff.

2 The Gym here in Viridian City is closed... (It is actually the last gym you face)

3 And lastly the PokéMart is functioning normally.

Pick up some PokéBalls, Antidote and Potions at the PokéMart for your journey ahead. Then we will head out Viridian City to the West...

Route 22: Visit One

Wild Pokemon	
Ratatta	45%
Mankey	45%
Spearow	10%

Route 22 is a good place to train before heading onwards in the game. But don't go past the first grassy area or you will be confronted by your Rival.

You should have at least a couple Pokemon at Level 9 before confronting your Rival here. There is nothing else of interest on Route 22 yet.

Route 2: Visit One

After training up on Route 22 head back into Viridian City and up to Route 2.

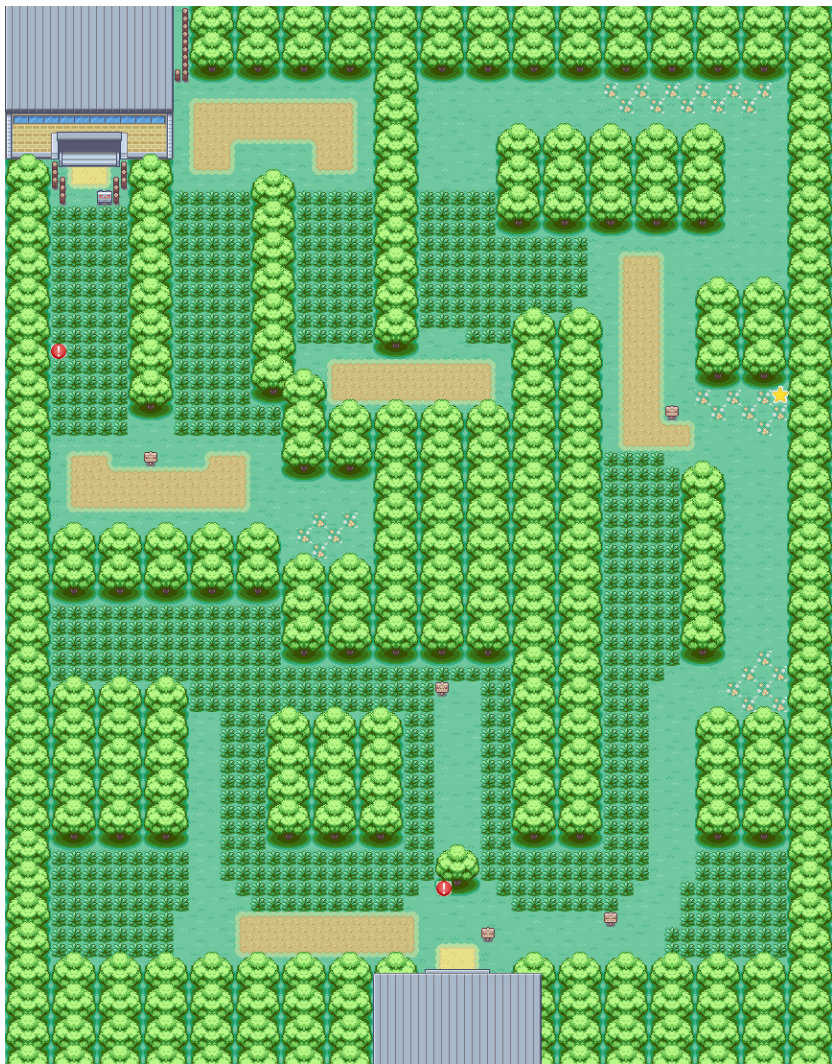

Due to the cuttable trees on Route 2, the only way you can go is up into Viridian Forest.

Wild Pokemon	
Ratatta	45%
Pidgey	45%
Caterpie	5%
Weedle	5%

You are welcome to train here before the Viridian Forest aswell...

Viridian Forest

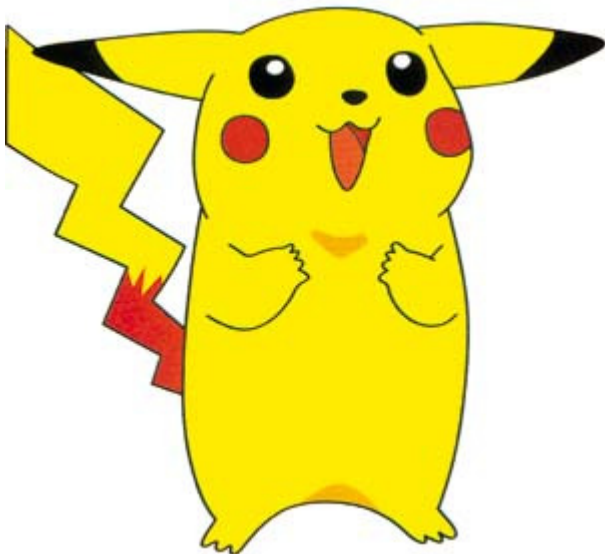

Viridian Forest is a little maze filled with Bug-type Pokemon and trainers to battle.

There are four items in the forest in PokeBalls laying on the ground and two (noted on the map) that are hidden.

Wild Pokemon	
Caterpie	40%
Weedle	40%
Kakuna	10%
Metapod	5%
Pikachu	5%

There are no other events in Viridian Forest... and no reason to ever return...

[DEVELOPERS NOTES: 50% of wild Pikachus will be holding a Light Ball, which doubles their Special Attack.]

Route 2: Visit Two

Well now that we are out of Viridian Forest... we are back in Route 2... which is again... useless without HM01 CUT...

If you look carefully to the right side of the screen you will see a Legendary Dog... He may or may not be there later in the game...

If you need to train up for the Gym Leader Brock hit up the grassy area for awhile... then head on into Pewter City.

Pewter City

There is not a lot going on in Pewter City, but it's a perfect place to get your first Pokemon League Gym Badge

1 Well, the biggest reason for getting your first Gym Badge is... you cannot leave the town without it...

2 For a mere \$50 you can check out the Museum here. There are no goodies inside for you but it's informative.

3 Brock is the leader of the Gym here. He has a level 12 Geodude and a level 13 Onix.

4 Come back here with HM01 CUT to pick up an Old Amber from a scientist inside the Museum.

After defeating the Gym Leader you will be rewarded with the Boulderbadge, which allows you to use HM05 FLASH outside of battle. Brock also gives you TM39 Rock Tomb.

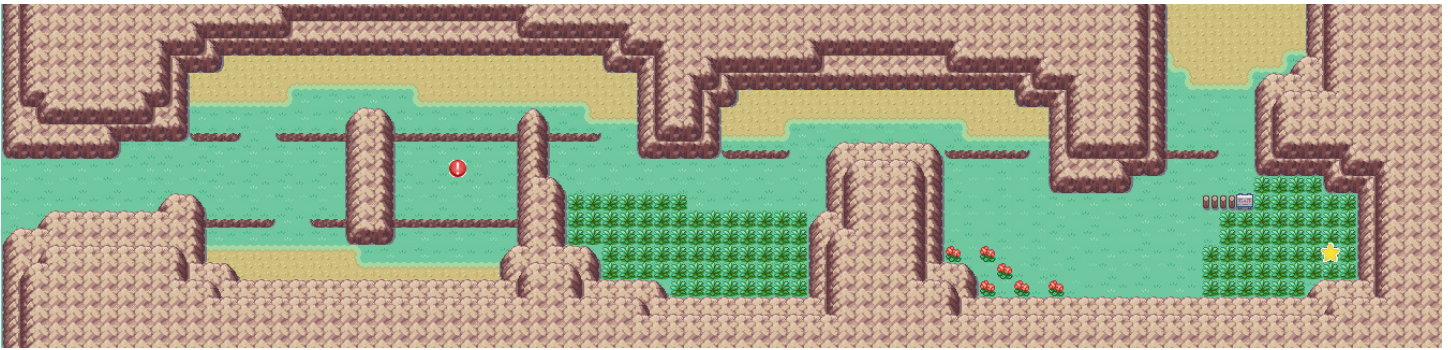

5 When its time to leave town just head out the East side of town and one of Professor Oaks aids will greet you with a delivery from your mother...

Just press (B) to run in pretty much anywhere.

Now that you are running in style, you can head on to Route 3.

Route 3

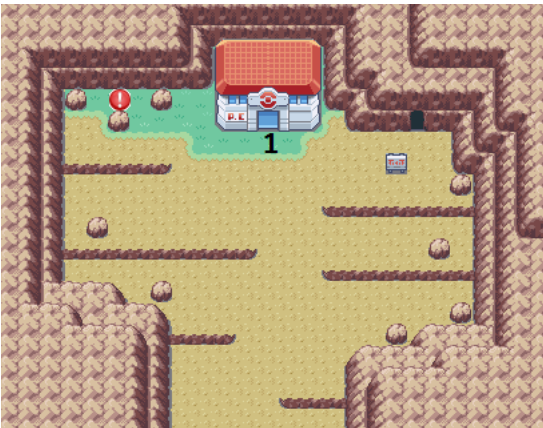

Wild Pokemon	
Spearow	35%
Pidgey	30%
Mankey	10%
Nidoran[m]	10%
Jigglypuff	10%
Nidoran[f]	5%

Plenty of trainers, new pokemon and a Shinyizer spot...
Thanks for stopping by Route 3... move along.

On a happier note, Route 3 is pretty much the only place to
find Jigglypuff.

Route 4

1 There is a PokéCenter right before Mt. Moon... What do ya know. Inside its got a surprise too.

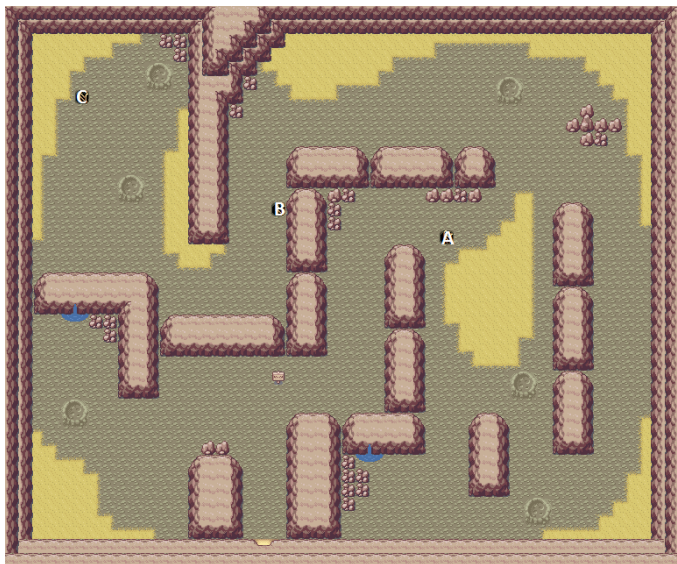

A man will sell you a Magikarp for \$500... Before you discount this as a waste of money, consider this... you can train this Magikarp to Level 20 and evolve it into Gyarados before the 2nd Gym.

The only thing left to do now is heal up and head into Mt. Moon.

Enjoy!

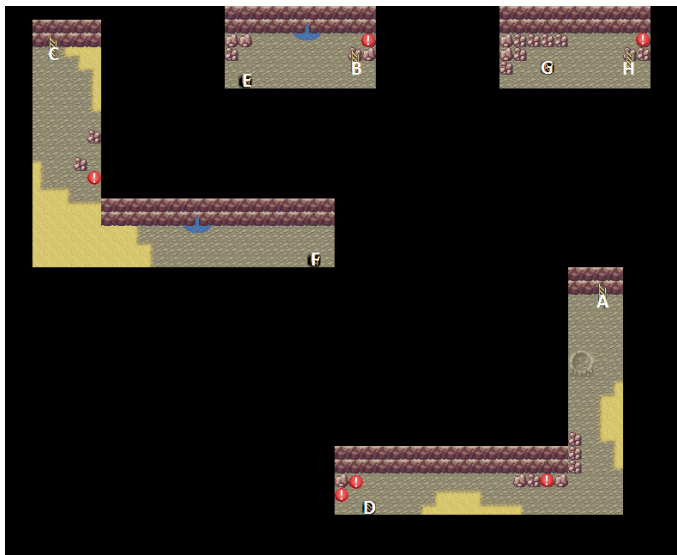

Mt. Moon

Wild Pokemon	
Zubat	69%
Geodude	25%
Paras	5%
Clefairy	1%

Six Items and Eight Trainers await in the first area in Mt. Moon

There are no special events however.

Wild Pokemon	
Paras	100%

The first basement of Mt. Moon is just a series of tunnels leading to the second Basement.

There are six hidden items on in this area though.

But still no special events.
But [H] is the exit back to Route 4

Wild Pokemon	
Zubat	49%
Geodude	30%
Paras	15%
Clefairy	6%

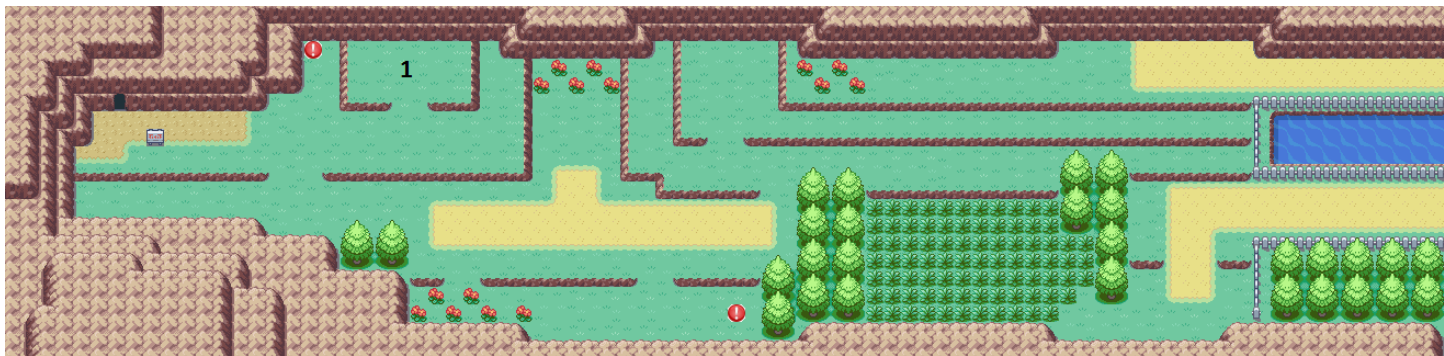

Along with 4 items in PokeBalls and two hidden items, it appears Team Rocket has invaded the second basement of Mt. Moon. Four Rocket Grunts and one Super Nerd are trying to find some rare Fossils.

1 This Super Nerd is guarding these two rare Fossils, but once you beat him you can take them off his hands.

After picking up the two Fossils you simply follow the letters to [H] and your outside back on Route 4.

Route 4

Wild Pokemon	
Spearow	35%
Rattata	35%
Ekans	14%
Sanshrew	11%
Mankey	5%

This stretch of Route 4 is fairly straight forward. Be warned, you cannot come back to this area once jumping over the last hump for quite some time. Don't forget the two hidden items.

1 If you have a need for Mega Punch or Mega Kick just talk to these two fellows. They will teach one of your Pokemon these moves... only once, choose carefully.

After picking up the single Pokeall item, just keep heading East and you will be in...

Cerulean City: Visit One

Before you head up to Route 24 you need to heal for battle

1 For this Rival battle your Pokemon need to be around level 18

2 Misty rules this gym with a level 18 Staryu and a level 21 Starmie. If you win she rewards you with the Cascadebadge. Which grants the ability to use HM01 CUT out of battle.

3 There is a Bicycle Shop in Cerulean City. But you cannot get a bike yet...

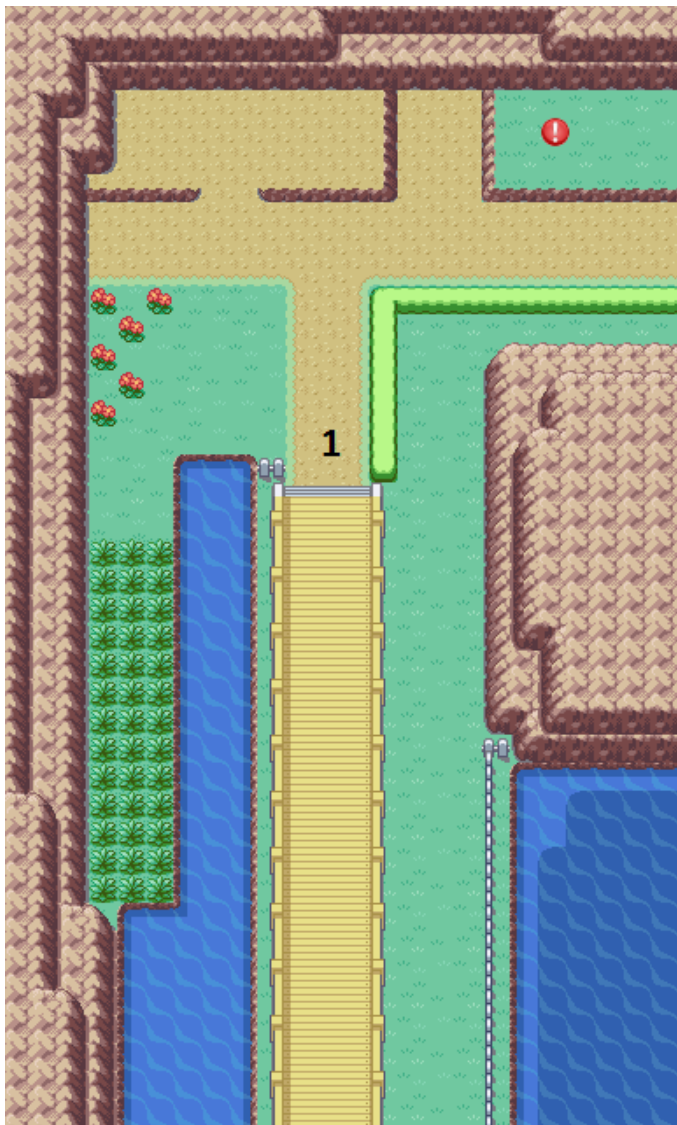

4 The house in the Northeast corner has been robbed, so you cannot go in until after the investigation.

5 Keep this house in mind later in the game, it is the only place to get a Jynx, but you need to trade for a Polywhirl.

Route 24

After beating Misty its time to head North to Route 24...

1 Nugget bridge is the first thing you will face upon entering Route 24, it contains five trainers and one Rocket Grunt... but once completed you get a shiny new Nugget as a prize.

Wild Pokemon	
Weedle	20%
Caterpie	20%
Pidgey	15%
Oddish	15%
Abra	15%
Bellsprout	10%
Kakuna	4%
Metapod	1%

After the Nugget Bridge event you will only find one trainer, one PokeBall item, and one hidden item.

Route 25

Wild Pokemon	
Weedle	20%
Caterpie	20%
Pidgey	15%
Bellsprout	15%
Abra	15%
Oddish	10%
Kakuna	4%
Metapod	1%

With an abundance of trainers there is no shortage of experience here, there is one PokeBall item and four hidden items.

1 To get the item behind this trainer you can either come back later with HM01 CUT and cut the tree, or you can let the trainer see you from a distance so he is forced to walk away from his spot to battle you. After the battle, just go get your prize.

2 A lot is going to go on inside this little seaside cabin, so try to keep up...

Up first, the PokeManiac BILL has managed to turn himself into a Pokemon... You need to help him to score a required item.

After rescuing BILL, take a trip through his machine and see where you end up.

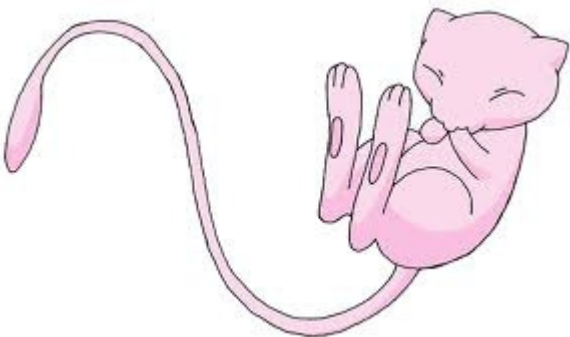

There is absolutely NOTHING in this new area...

Except the only Mew in the game. It is level 7 so be careful not to beat it. Save before you fight just in case you do defeat it.

After you are done here, head back down to Cerulean City.

Cerulean City: Visit Two

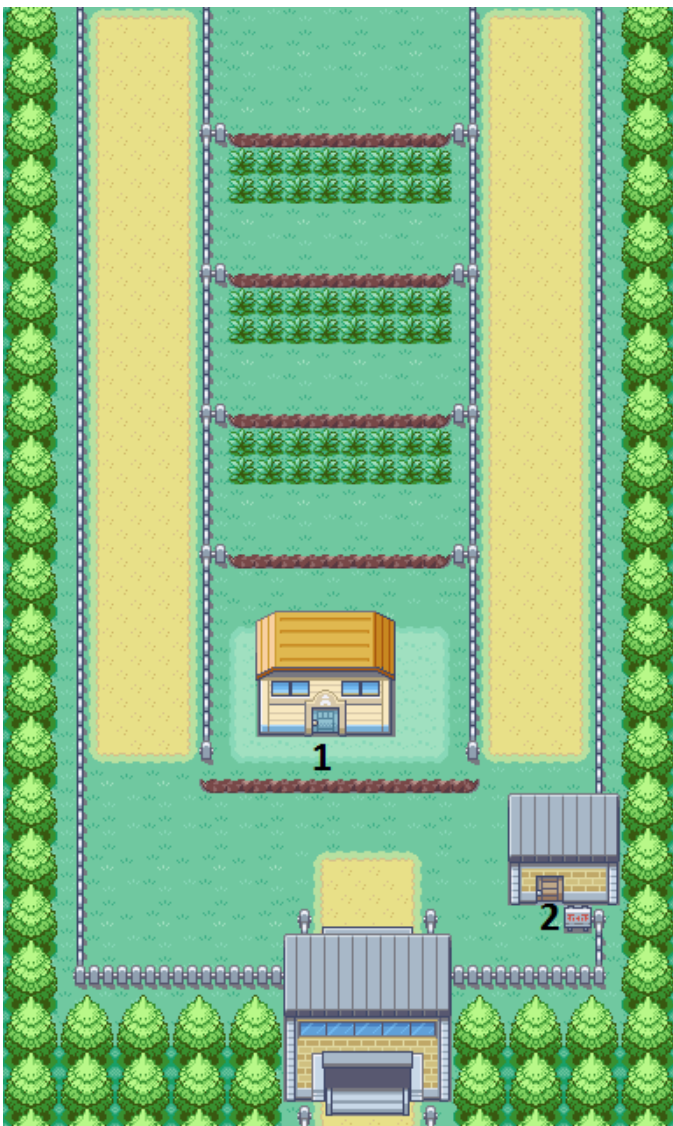

1 You will notice after getting the S.S. ANNE Ticket the guard has moved from in front of the robbed house... Go inside.

2 Head through the house and out the back. There you will find a rocket member, once defeated he "returns" the TM28 DIG to you...

After you have finished up with the Rocket Grunt, just head South onto Route 5.

Route 5

Wild Pokemon	
Pidgey	40%
Meowth	35%
Oddish	15%
Bellsprout	10%

There are a few things worth looking into on Route 5 .

1 The house here is a Daycare for Pokemon, they will raise your Pokemon for you.

[DEVELOPERS NOTES: Pokemon in the Daycare gain 1 EXP per step you take, and you pay \$100 per level they gain when you get them back.]

The bigger building to the South is a dead end for now, we are heading to the small building to the East marked 2.

2 Inside this building is a girl who will trade Nidoran[m] for Nidoran[f]... Then just head down the stairs to the Underground Path

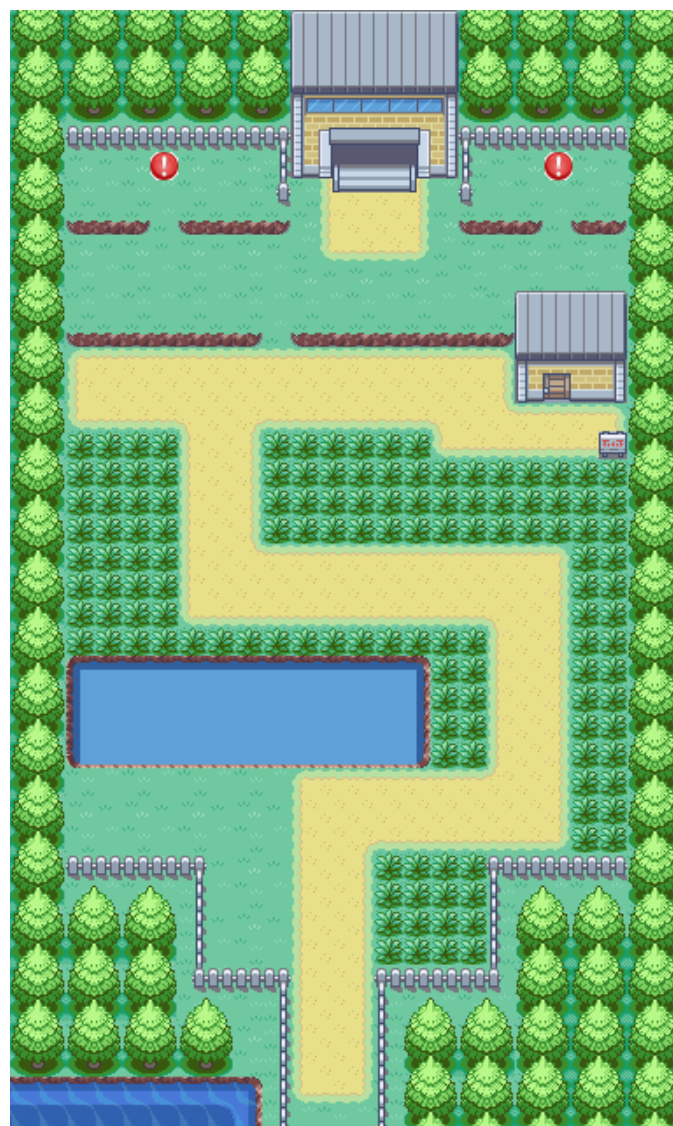

The Underground Path has several hidden items to find once you get the Item Finder.

Route 6

Wild Pokemon	
Pidgey	40%
Meowth	35%
Oddish	15%
Bellsprout	10%

Route 6 is a great place to train up for your next big challenge. With six trainers and a boatload of grass there is plenty of EXP to go around. There are also two hidden items.

Vermilion City: Visit One

Vermilion City is one happening place. Every single building in this town has an event in it with the exception of possibly the PokeMart.

- 1** This girl gives you the VS Seeker, a device that lets you battle trainers you have already fought.

- 2** The Fishing Guru gives you the Old Rod... catch all the Magikarp you want with this bad boy... only Magikarp though...

- 3** The girl in the center house wants to trade a Spearow for the only Farfetch'd in the game.

- 4** The Chairman of the Pokémon Fan Club gives you a Bike Voucher for listening to him gush. Run back to Cerulean and grab your Bicycle.

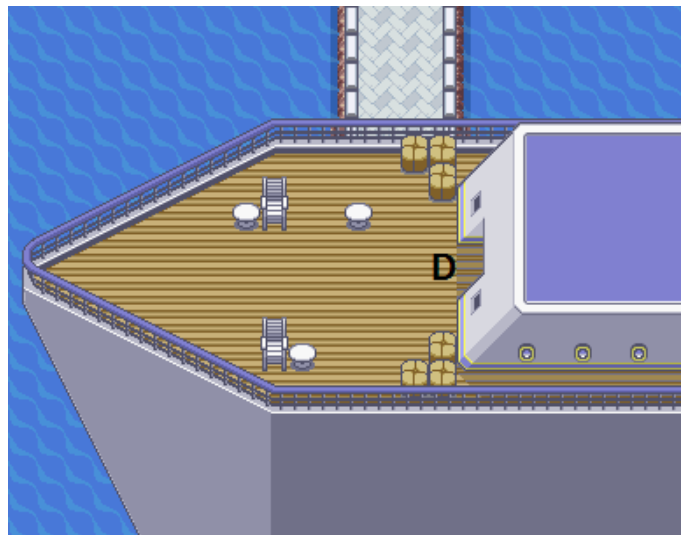

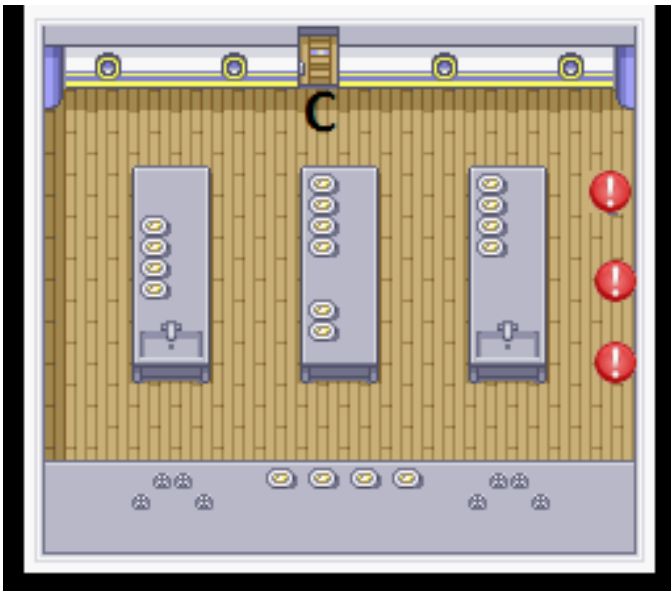

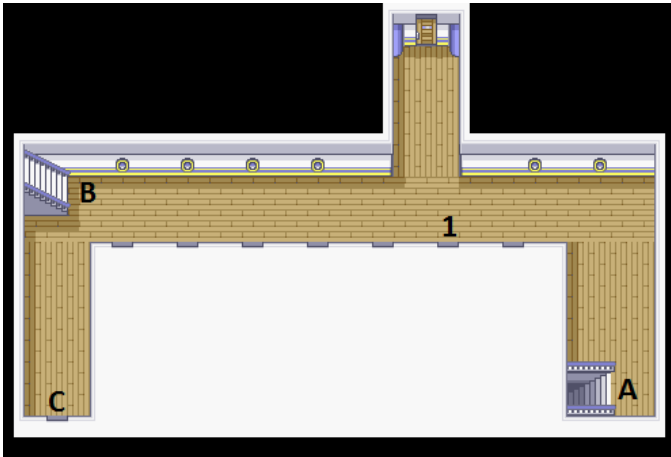

[DEVELOPERS NOTES: Farfetch'd is a great addition to any team, able to learn HM01, HM02, and HM05]

- 5** After cleaning up in Vermilion, head south to the dock and flash your S.S. Ticket to get on the S.S. Anne cruise liner.

S.S. Anne

There is a literal boatload of trainers and PokeBall items on this ship. There are also 4 hidden items to find and a few notable events.

1 As you enter from Vermilion City, one of the rooms right in front of the door has a nice lady willing to let you heal your Pokemon in her bed.

2 Your next Rival battle happens here. Your team should be at level 20+ before facing him.

3 Once you are finished on the boat head in to talk to the Captain. He is not feeling well.

After restoring health to the Captain, it is time to say good-bye to the S.S. Anne and head back in to Vermilion City and out the East side to Route 11.

Route 11

Wild Pokemon	
Spearow	35%
Drowzee	25%
Sandshrew	20%
Ekans	20%

We come here to train before our 3rd gym leader battle. There are 10 Trainers to battle, two PokeBall items and one hidden item. Three of the four Pokemon in this area are new so spend some time catching them. Continuing east is a dead end.

1 One of Professor Oaks aids will give you the Item Finder if you have caught 30 kinds of Pokemon.

2 The only notable thing on Route 11 is Diglett Cave. Head on in and follow the linear path back to Route 2

Wild Pokemon	
Diglett	95%
Dugtrio	5%

Route 2: Visit Three

1 The man in this house is willing to trade an Abra for the only Mr. Mime in the game

2 Head inside the building to the south and one of Professor Oaks aids has something for you, if you have caught 10 Pokemon.

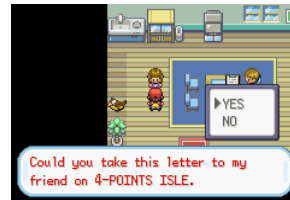

After picking up some goodies on the ground (and from inside the building) it is time to head back to Vermilion City and face Lt. Surge.

Vermilion City: Visit Two

1 Lt. Surge commands this gym with his level 18 Pikachu, level 21 Voltorb, and level 24 Raichu. Win and you get the Thunder Badge, allowing you to use HM05 FLASH outside of battle.

2 Talk to the little girl in the southernmost house to be sent on a quest on an island far to the south.

4-Points Isle: Visit One

Swablu	15%
Kecleon	10%
Spinda	10%
Whismur	5%
Castform	5%

4-Points Isle is a very religious island. Trainer battles are illegal so you will find no trainers here. But due to the lack of violence, the Pokemon here are unique compared to the rest of the world.

1 Inside the house on the shore, the woman here will take the letter and give you a Blue Flute.

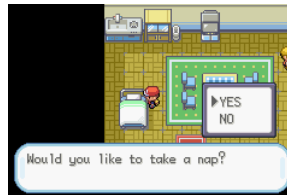

2 The guard won't let you into the town here... Check out the fence line to get past him.

4-Points Isle Town: Visit One

There is not a lot to do on your first visit here. If you are up for a challenge you can, however, land another legendary Pokemon, but it won't be an easy road.

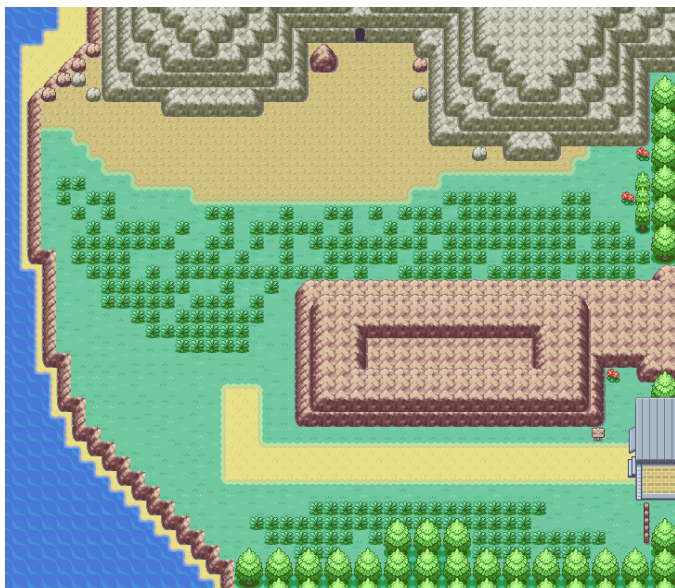

1 Being a trainerless town, there is no reason for a PokeCenter, so just rest up at this house near the PokeMart.

2 And if you need to swap out Pokemon, just stop by the lab here on the island.

Heading out the Southeast will put you in a forest... and there isn't much to do there yet, so we will head out the Northwest.

Dread Mountain Prairie

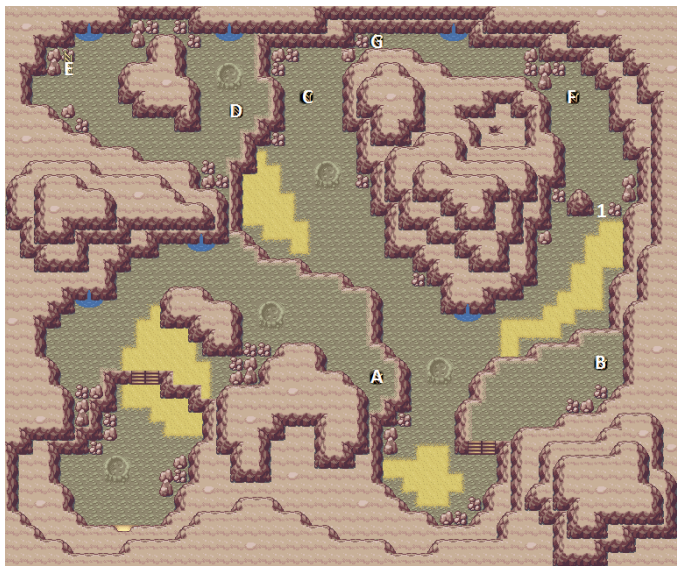

Wild Pokemon	
Shroomish	25%
Cacnea	25%
Seviper	15%
Zangoose	15%
Treeko	10%
Slackoth	10%

Nothing to do in this open field except catch unique Pokemon. When you have caught your fill, head on inside the Mountain.

Dread Mountain: Visit One

Wild Pokemon	
Meditite	35%
Makuhita	30%
Nincada	15%
Numel	15%
Hariyama	5%

There is little to do in this cave except make it through the linear path and catch some more unique Pokemon.

1 There is one split in the path but you are blocked off if you take the East path, so take the West path and continue onward.

2 At the peak of this great mountain there is a very rare Pokemon, this is the only one you will ever see. If you cannot handle a level 45 Pokemon than don't even bother coming up here, you will be back in this cave later, just pick it up when you are stronger.

That's it for now, Head back to Vermilion via the dock to the South.

After you hit the mainland head straight for Cerulean City, you are going to head East from there through a cutable tree. You will find yourself on...

Route 9

Wild Pokemon	
Rattata	40%
Spearow	35%
Ekans	14%
Sandshrew	11%

A short path with nine trainers, two PokeBall items and three hidden items.

Route 10: Visit One

Wild Pokemon	
Voltorb	40%
Spearow	35%
Sandshrew	14%
Ekans	11%

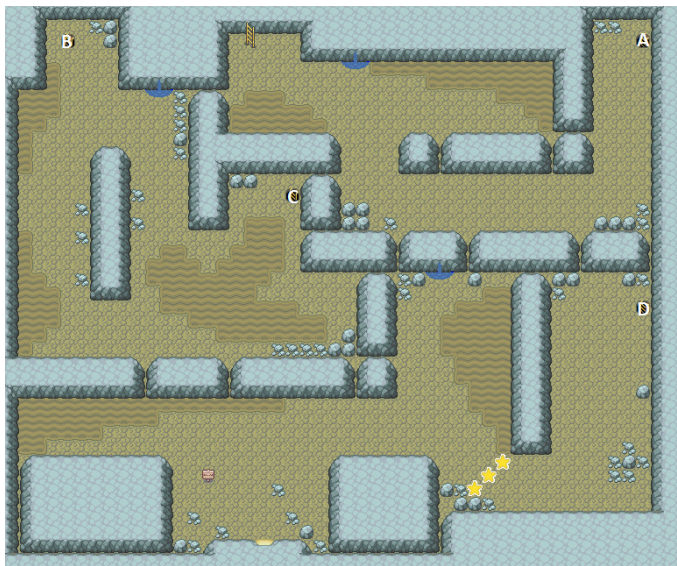

Route 10 has three hidden items and one trainer.

1 Inside the PokéCenter, just before Rock Tunnel, one of Professor Oak's aids is waiting for you.

Rock Tunnel: Visit One

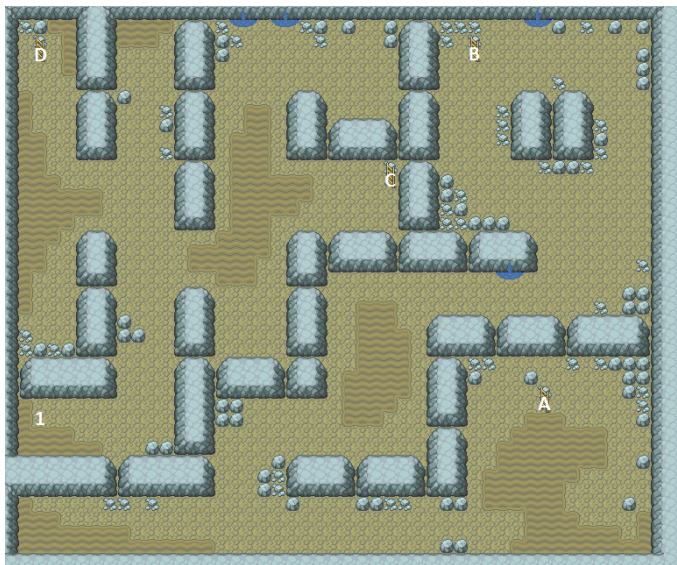

Rock Tunnel is a dark cave filled with Pokemon and Trainers. This is your first opportunity to pick up an Onix and there is a shinyizer area crossing your path near the end. Using HM05 FLASH can help you navigate this cave.

Wild Pokemon	
Geodude	35%
Zubat	30%
Mankey	15%
Machop	15%

Zubat	30%
Mankey	15%
Machop	10%
Onix	10%

The basement has several more trainers and two more PokeBall items. Just make your way from ladder to ladder until you find the exit and come back out to Route 10.

1 There is a boy hanging out in Rock Tunnel that is willing to teach one of your Pokemon Rock Slide.

Route 10: Visit Two

There are a few more trainers on Route 10 before you go into Lavender Town. And one hidden item as well.

Lavender Town: Visit One

Lavender Town is a depressing creepy kind of place... and if you explore on your first visit you will find more questions than answers.

- 1 The only event accessible right now is the Name Rater. A man who will rename any Pokemon you caught.

Heading South leads to a dead end, so we shall head West to Route 8.

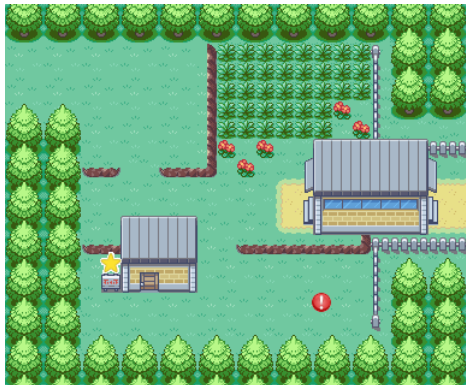

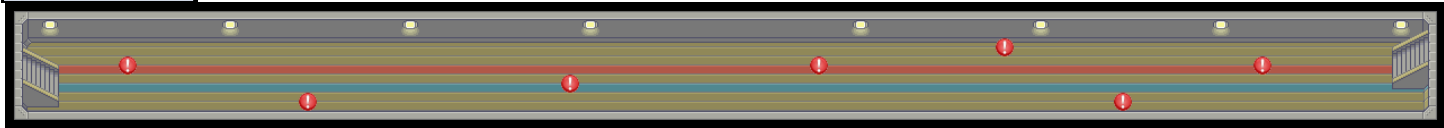

Route 8

Wild Pokemon	
Pidgey	30%
Meowth	30%
Growlith	15%
Ekans	10%
Sandshrew	10%
Vulpix	5%

There are no events on Route 8, just fight trainers and pick up the three hidden items in the grass. When you reach the end go in the small building to the North and head down the Underground Path.

The Underground Path has several hidden items to find once you get the Item Finder.

Route 7

Once outside head East into the metropolis that is Celadon City.

Wild Pokemon	
Pidgey	30%
Meowth	30%
Oddish	10%
Bellsprout	10%
Growlith	10%
Vulpix	10%

Celadon City

Celadon City is a hive of events, we have a lot to do immediately when we get here. Check out the MASSIVE shopping mall here, pick up anything you could ever want, from HP UPs to Fire Stones.

1 After shopping head around the backside of the PokeCenter and follow the path to the roof of Celadon Mansion, get a free Eevee.

2 Next, we need to head down to the café in the South and pick up another useful item.

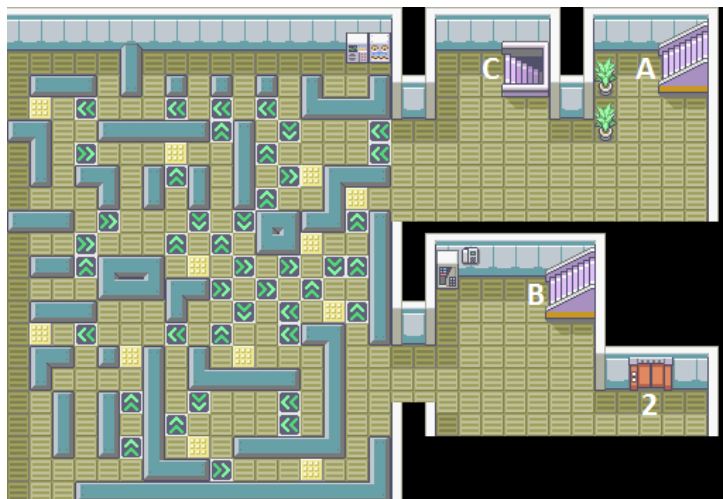

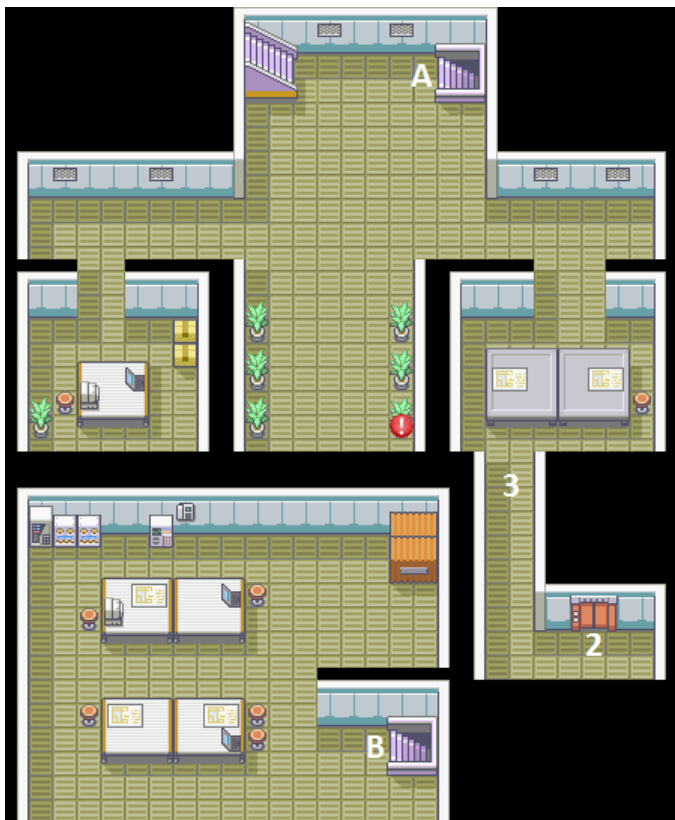

4 Go in the Game corner and talk to the Rocket Grunt standing in the back of the room. Be ready for battle!

3 Erica is the boss here, she's got a Lv. 24 Tangela, a Lv. 29 Victreebel, and a Lv. 29 Vileplume. If you beat her you get the Rainbow Badge.

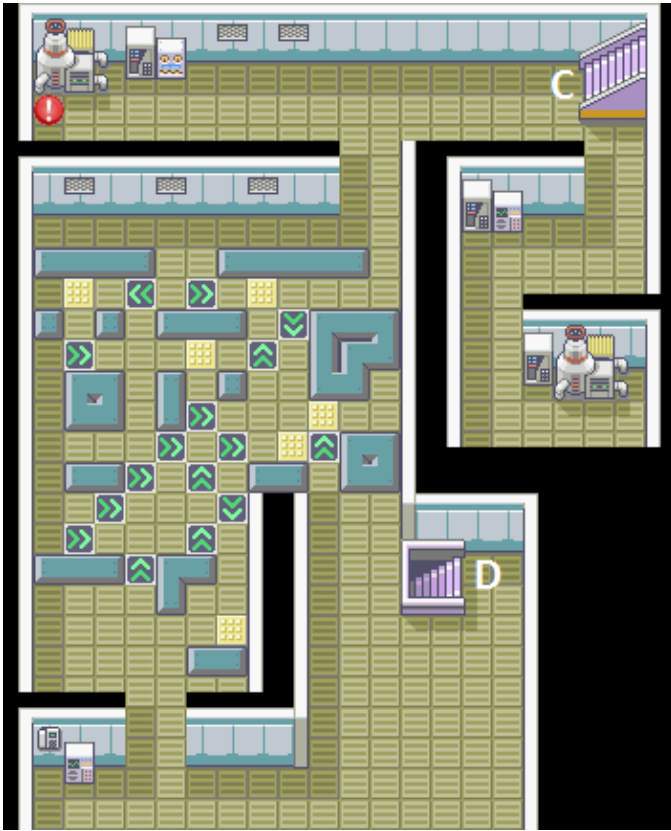

Rocket Hideout

Press the button behind the sign to open up a secret passage inside the Rocket Hideout.

There are no Pokémon inside the hideout, only plenty of trainers, 13 PokeBall items, and four hidden items.

R

- 1 Follow the stairwells to [D] and fight the man at the north end of the room.

- 2 After obtaining the Lift Key, take the elevator to the fourth floor.

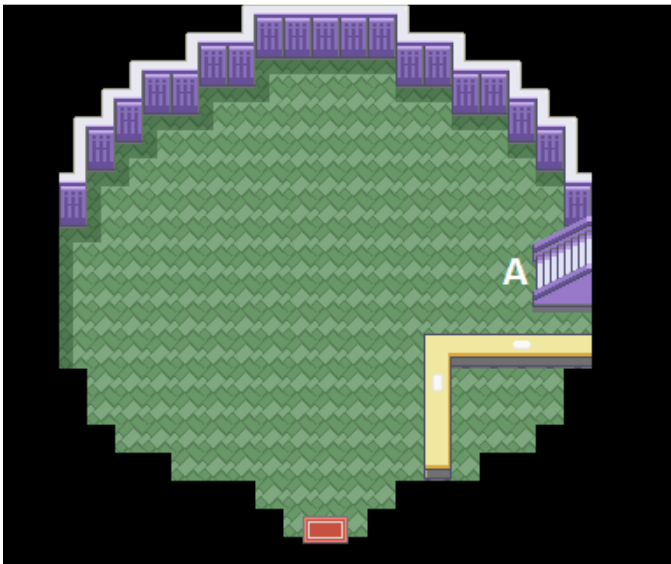

- 3 Defeat the two rocket grunts in front of the gate on the fourth floor to get into the final room.

- 4 Team Rockets leader is lounging just past the gate, defeat him for the Silph Scope.

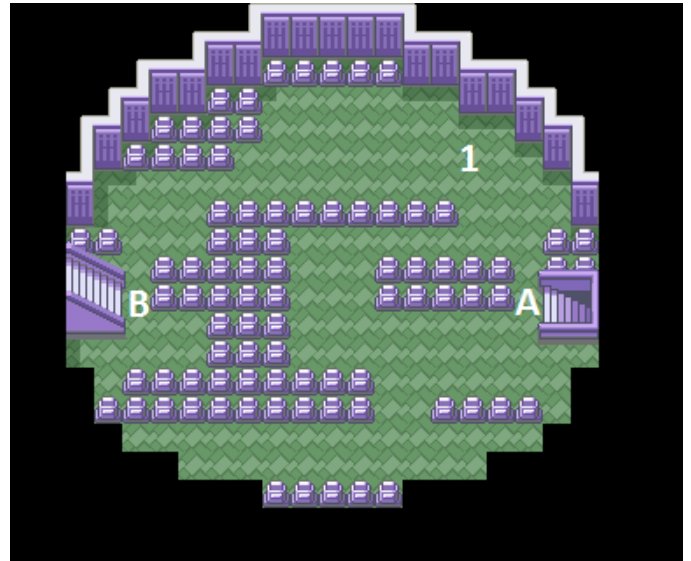

With the Silph Scope in hand, we are going to head straight for Lavender Town.
Once there go into the big creepy tower.

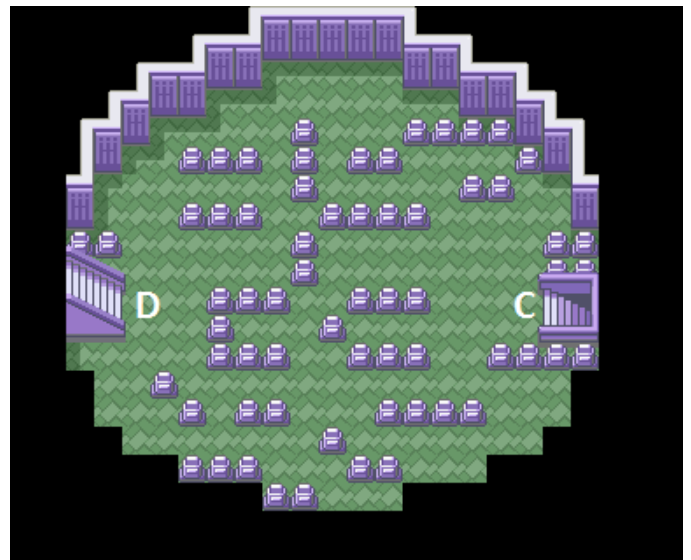

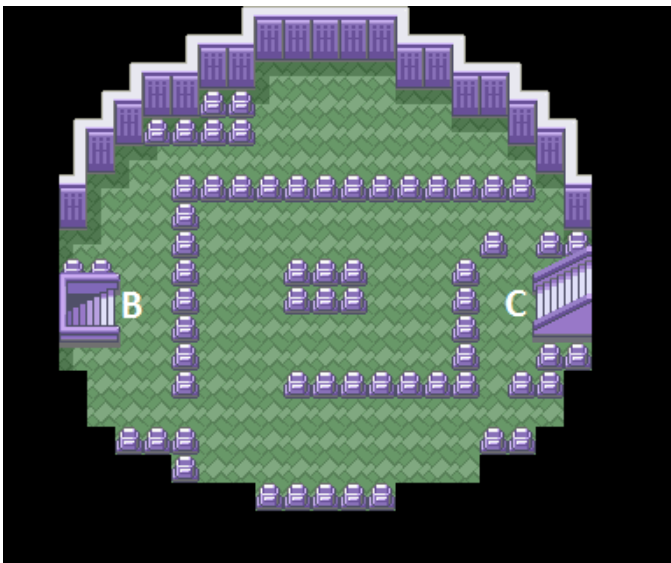

Pokemon Tower

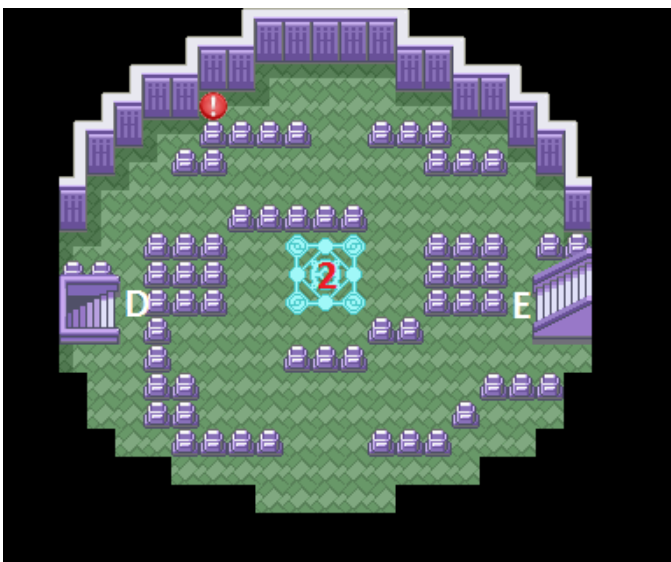

Pokemon Tower is a creepy tower where Pokemon are brought to be buried. You must climb to the top to rescue Mr. Fuji, use the Silph Scope to see that the ghosts scaring people are actually Pokemon.

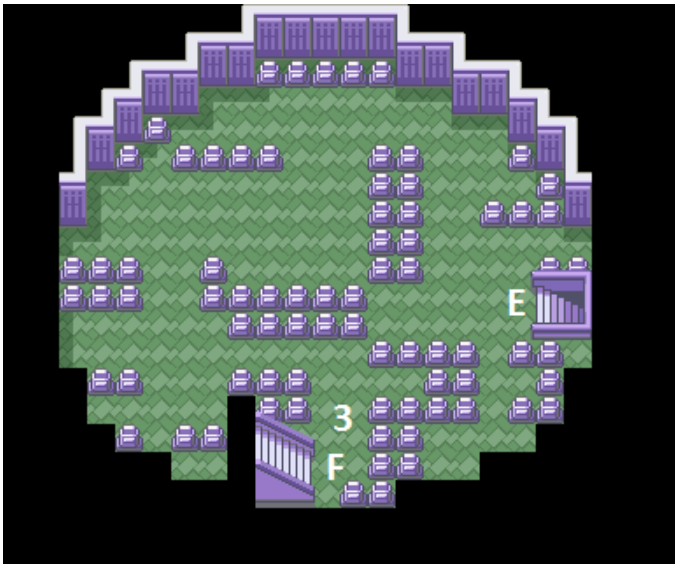

1 Your next Rival battle is here. You will want to be at or above level 25 for this fight.

2 By stepping in the glowing floor you can heal your Pokemon.

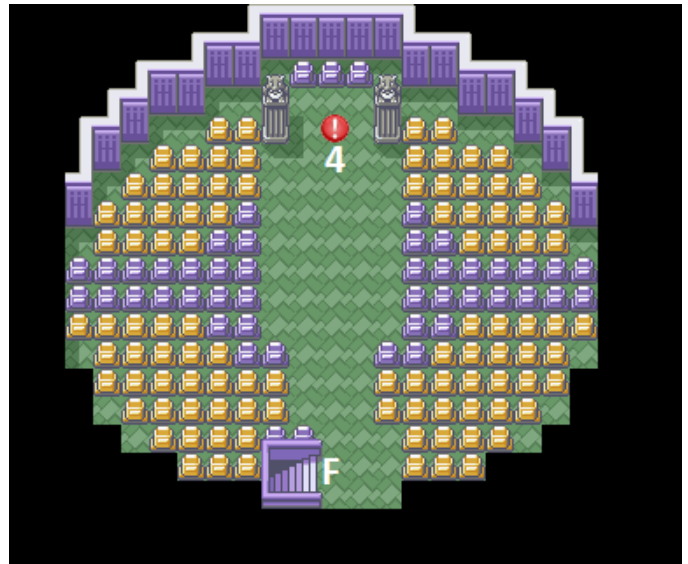

4 After defeating all the Rocket members, you find that Mr. Fuji was not even kidnapped... Oh, well, let's head to his house to collect the PokeFlute

3 Time to put that Silph Scope to good use and find out what Pokémon has been blocking your path

Let's return to Celadon... we have some unfinished business.

Back in Celadon we need to go inside the Celadon Mansion and talk to the old woman on the first floor.

She is a nice old woman who gives you some TEA just for showing up...

Now we are ready to head East to Saffron City, through the closed road on the East side of Route 7.

Saffron City: Visit One

1 An odd Psychic man gives you a powerful TM just for dropping by...

2 The small unofficial Fighting-type gym beside the main one gives you 2 free Pokemon instead of a League Badge.

3 Rocket members area all over Saffron City. They are even blocking the entrance to the Gym. To remove them you have to scale the Silph Co. building...

Silph Co.

1 The Elevator here will take you to any floor, no key required.

2 There is a man here on the second floor that will teach one of your Pokemon Thunder Wave.

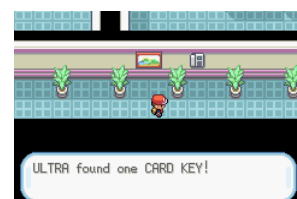

Due to the massive number of Warp Tiles, to lower confusion, Staircases will be marked with **BLACK** letters and Warp Tiles will be marked with **INDIGO** letters.

3 Some gates are up around the Silph Co. You need a Card Key to open them.

4 The Card Key can be picked up on the fifth floor...

5 Take Warp [P] to get into a battle with your Rival, he is near level 40 now.

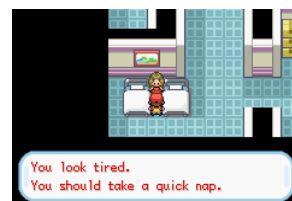

6 After defeating your Rival, a nice man will give you a free Lapras.

7 You may rest your Pokemon on these beds... How convenient.

8 The Rocket Boss challenges you here. He presents quite a challenge if you are not prepared.

9 A grateful Silph President gives you a VERY generous reward for saving his company.

Saffron City: Visit Two

1 Bring the CopyCat a PokeDoll and she will teach one of your Pokemon Mimic.

2 Sabrina dominates this Gym with her level 38 Kadabra and Venomoth, level 37 Mr. Mime, and level 43 Alakazam. Beat her

for a Marsh Badge... which has no effect on the use of moves out of battle.

With Team Rocket thoroughly defeated, we will head back to 4-Points Isle to pick up some rare Pokemon.

4-Points Isle: Visit Two

1 The man in the rest house is looking to sell off his land and move to Kanto. Help him out to gain access to more of the Island.

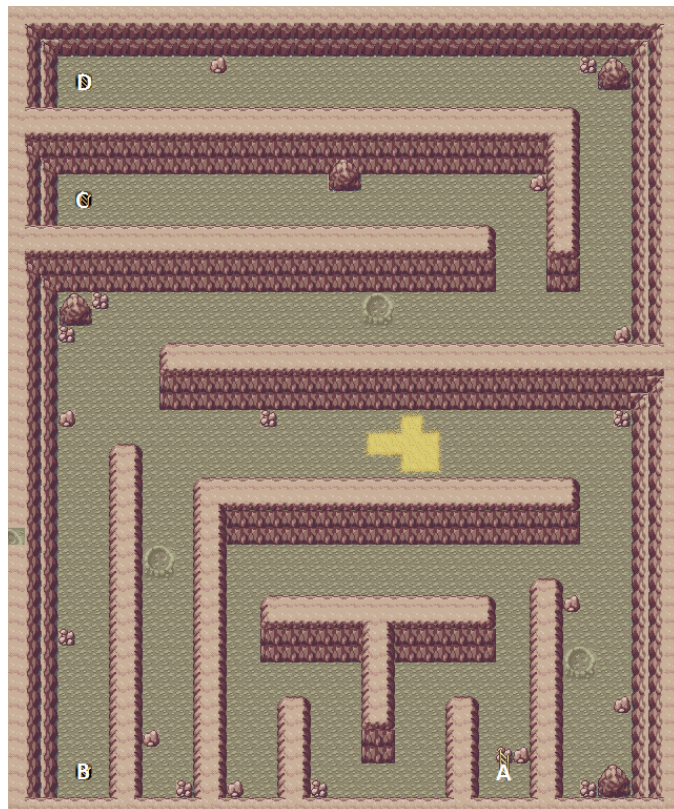

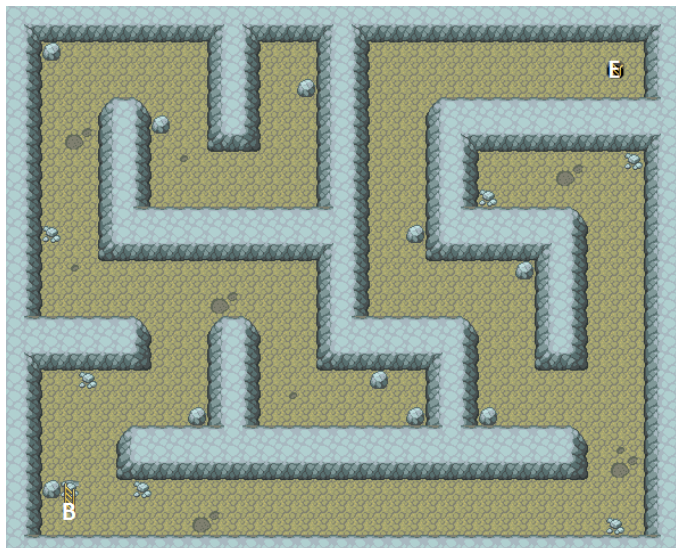

2 Now that you are an official resident, the “cult-like” patrons of 4-Points Isle will allow you to access their Catacombs. You will also notice, you can come and go through the front gate without cutting the tree.

Dotted Hole

1 What the?!? You were just robbed... that did not go as expected...

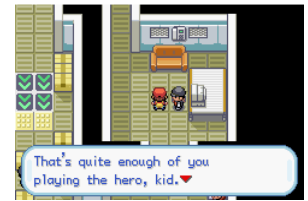

Well atleast we have the other password to get into the Rocket Warehouse back on Five Island... let's head stright over there and avenge Loriei... Maybe we will find that robber too... So make you way back to the Rocket Warehouse.

Rocket Warehouse

After finally getting inside the warehouse you need to maneuver around all their stolen merchandise.

1 No event here... just a warning, this Admin is hard... quite hard... that is all. Beat rocket for the last time here.

2 Look whos cowering in the back room... GET HIM!

With the Sapphire in hand, head back to One Island and hand it to Celio...

With both the Ruby and Sapphire, Celio can finish his machine and you are done with all the quests... Nothing left but catching Pokemon... congratulations.

Upon completion of the Ruby/Sapphire quest, you have unlocked EVERY legendary pokemon in the game... let's get to hunting them... how about we start with the Legendary Dogs; Entei, Raikou, and Suicune.

These dogs are unique in location, depending on which Pokemon you chose as your first Pokemon you will find the dogs in different locations.

On Route 2 (behind diglett's cave) you will find:
 If you chose Bulbasaur you will find Suicune.
 If you chose Charmander you will find Raikou.
 If you chose Squirtle you will find Entei.
 If you caught your first pokemon you will find Suicune.

[DEVELOPERS NOTES: These screenshots are edited to show all 3 legendaries, you will only find one in each location]

In Rock Tunnel you will find:
 If you chose Bulbasaur you will find Raikou.
 If you chose Charmander you will find Entei.
 If you chose Squirtle you will find Suicune.
 If you caught your first pokemon you will find Raikou.

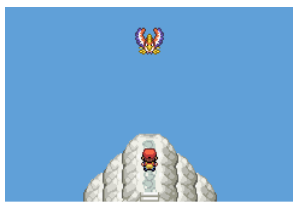

The third Legendary Dog is roaming around Kanto, you will randomly find it in the tall grass. Happy hunting!

With the 3 Legendary Dogs under your belt, we should head for some new islands and grab 3 more Legendary Pokemon. First we need to go to the PokeMarts on Six and Seven Island and pick up the Aura Ticket and the Mystic Ticket... they may be pricey but that is the only way to get these Pokemon.

With both tickets you have some more destinations from your Vermilion seaport, you can only get there from Vermilion.
How about Navel Rock first...

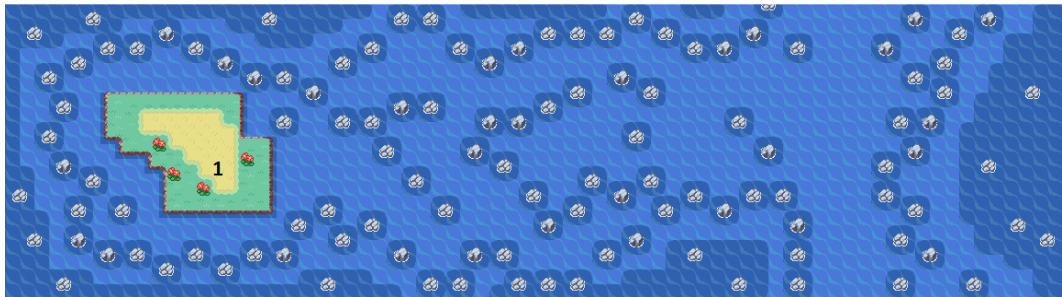

There are 2 Legendary Bird Pokemon on Navel Rock, Ho-oh and Lugia... take the ladder up for Ho-oh and the ladder down for Lugia...
If you make them faint, you can rebattle the Elite Four and they will be back, only if they faint though.

Birth Island is an odd challenge. To solve this puzzle, all you need to do is touch the side of the triangle closest to you till it turns red (the triangle moves), quickly or it resets.
If you make Deoxys faint, just beat the Elite Four again and try again.

That leaves only two Legendary Pokemon left... But I think we should explore the Sevii Islands a little more before we tackle them. Head back to Five Island, follow the beach around to the North end and surf North.

1 Nothing to do here but head straight for the cave on the East side.

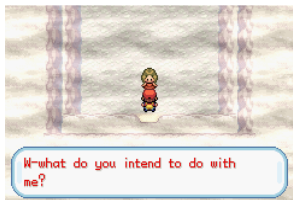

Lost Cave

The rooms in Lost Cave are all very similar, to get to the end, you simply need to count the rocks scattered around the room, if there are three rocks, go in the East door, six rocks go in the South door, nine rocks go in the West door and if there are twelve rocks go in the north door... that simple.

When you get so far down in the cave, you find a strange girl. Help her out of the cave...

After rescuing her, she asks to see certain pokemon, if you bring them to her, she gives you random prizes.

Seven Island

1 The aspiring trainer on the bridge to the South will teach one of your Pokemon Swords Dance.

You can head North and check out Trainer Tower, or head South and check out Tanoby Ruins... Start by heading North.

1 Within the Trainer Tower, you'll be able to fight up eight levels of Trainers in four different gameplay modes: Single, Double, Knockout, and Elimination. The goal is to conquer the Tower in the quickest time possible to win an Up-Grade. Each time you break your record, you'll get another Up-Grade, but this will get more and more difficult with each ascent, for all the Pokemon you fight are the same strength as the strongest Pokemon you bring to a battle. In addition to the Up-Grade reward, it's also a good way to compare with friends exactly how quickly you can reach the top.

Trainer Tower

When you finish playing at the Trainer Tower, head back to town then continue South.

Tanoby Ruins is the only place to find the elusive Pokemon Unknown... there are 28 different forms of Unknown in the game, they represent the 26 letters of the English Alphabet and 2 characters of punctuation. Their locations are specific to which cave you go in, (each cave is labeled in the map above with the Unknown that reside in it). You cannot find any Unknown until you complete the Tanoby Key puzzle in Sevalt Canyon

Now that we have explored every thing the Sevii Islands has to offer, lets go catch those last two Legendary Pokemon. First up... Mewtwo... Fly to Cerulean City, go to Route 24 and surf back down to Cerlean, when you hit land, you should be infront of Cerulean Cave.

1 The level 70 Mewtwo is the strongest wild Pokemon in the game. Good luck catching it.

Now that you have Mewtwo, its time to get the final Legendary Pokemon, Celebi!

Celebi is in Berry Forest, you may have seen it there on our first trip in. It is at Level 7 like Mew. But there is a little more to this battle than just catching it.

If you defeat Celebi, it leaves behind an egg from the future. This egg contains a Pichu with Volt Tackle, the only way to get Volt Tackle.

If you beat the Elite Four a Second time, you will have another opportunity to catch Celebi.

You can breed this Pichu (once it evolves) to get more Pichus with Volt Tackle.

INDEX

The index will have the locations of everything in the game. We will start with Move Tutors. Move Tutors are people throughout the land that can teach your Pokemon a move, just like a TM they can only be used once.

After Mt. Moon there are two tutorw, on the left you get Mega Punch and on the right you can get Mega Kick.		Through the back door of the Pewter Museum, a scientist will teach one of your Pokemon Seismic Toss.	
Near the end of Rock Tunnel, a trainer will teach one of your Pokemon Rock Slide		Situated on the third floor of the Celadon Department Store is a person who is willing to teach the move Counter to one of your Pokemon.	
On the other side of the pond in Celadon City is a man who can teach your Chansey (or Mew) Softboiled.		If you give the CopyCat, in Saffron City, a PokeDoll, she will teach a Pokemon the move Mimic.	
A covering employee of the Silph Co. will give one of your Pokemon Thunder Wave.		Hiding in front of the pen containing Kangaskhan, this guy will teach one of your Pokemon Substitute.	
Situated behind a bush, this guy in Viridian City teaches one of your Pokemon Dream Eater.		Located in the second room of the Cinnibar Laboratory, a Scientist will teach your Pokemon Metronome.	
Right at the end of Victory Road is a guy who will teach your Pokemon Double-Edge.		On the outskirts of Mt. Ember, you will find a Hiker who will teach your Pokemon Explosion.	
On Four Island, a young man will teach one of your Pokemon Body Slam.		On Seven Islands Southern pier, a trainer will teach your Pokemon Swords Dance.	
On Two Island, there is a guy that will teach your Pokemon moves they had forgotten (even before you caught them), for a small fee.		In Cape Brink, a nice old woman will teach your first Pokemon a special move, ONLY if you chose one of Professor Oaks Pokemon as your first.

Beginning on the next page is a list of EVERY Pokemon and where they can be found in the game... the locations are color coded (with a key at the top), the coding corresponds to HOW you can catch the Pokemon in that location. Some Pokemon may be caught in multiple ways in the same location, only one way is color coded into the name... for example, Geodude can be found in Rock Tunnel by walking and by RockSmashing, he is only listed as being in Rock Tunnel by walking because listing it twice is silly. Psyduck and Slowpoke (and very few others) are in so many areas that they could not all be listed... deal with it.

Happy Hunting!
